**Every Member Canvass Made By Lutherans**

An every member canvass of the Trinity Lutheran church was conducted by 23 teams of men yesterday afternoon. The goal of the campaign is the budget of \$10,000. This includes \$5,000 for current expenses and \$5,000 for benevolence.  
Only a few reports have been made, some of the teams not having completed their lists. This will be done during the week and a complete report is expected by Sunday.  
Indications from the few reports now in are that the subscriptions ought to make it possible to attain the goal.

**VELVET IS STRONG FAVORITE**

Winsome Fabric Comes Into Vogue With the Autumn; Conforms to Any Style.

Velvet, always a prime favorite with the social arbiters, comes into vogue with the autumn. Lustrous, rich and colorful, it is one of the most versatile fabrics. It can be made to conform to almost any style, creating charm by its soft, melting, loops, shirring, catch-stitch in just the right places, plaids, and so forth.  
One of the merits that make it so well beloved is its ability to be quite as beautiful unadorned as it is beaded or embroidered or veiled with chiffon.  
As for color schemes, there is no medium known to sartorial circles that gives such certain, satisfying results. Any shade seems to become incarnated in loveliness that is fortunate enough to be called upon to color velvet.

Hurry, mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even a cross, feverish, constipated child loves its "fig" taste, and mothers can rest easy because it never fails to work all the sour bile and poisons right out of the stomach and bowels without griping or upsetting the child.  
Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother you must say "California." Refuse any imitation.—Advertisement

**JACOB H. BENDEL.**  
Impressive funeral services for Jacob H. Bendel were held Friday afternoon at the family home in South Pittsburgh street, with Rev. Dr. W. H. Helrick of Trinity Lutheran church and Rev. Francis J. Scott of the United Presbyterian church officiating. The funeral was one of the largest held in Connelville for some time and the many handsome floral tributes gave evidence of the high esteem in which the deceased was held in the community. Mrs. Forrest W. Buck, accompanied by Miss Pearl Kock, sang three appropriate numbers. C. M. Kock of Greenburg; F. G. Kock of Jeannette; Fred Hunter of Homestead, and Charles H. Hoffer of this place were pallbearers. The interment was made in Hill Grove cemetery. Out of town persons attending the funeral were Mr. and Mrs. J. R. Reagan and daughter, Grace, Mr. and Mrs. William Irwin, Miss Edith Bengel and Edward Bengel, all of Pittsburgh; Mr. and Mrs. N. W. Bengel and Mrs. Helen Black of Cincinnati, O.; Mr. and Mrs. Frank Reagan and daughter, Mr. and Mrs. Albert Reagan, Mr. Murray and Leonard Hunter, Scottsdale; Mrs. Jacob Baumgartner, Buffalo, N. Y.; Miss Annie Kock, Jeannette; Mrs. C. M. Kock, Greenburg, and Mr. and Mrs. P. Miller, Dickerson Run.

**MRS. GEORGE STILLWAGON.**  
Mrs. Marie Adams Stillwagon, 51 years old, wife of George Stillwagon, died suddenly Sunday at 2:45 o'clock at her home, 334 East Crawford avenue, from heart trouble. She had been in her usual health until about a half hour previous to her death. A physician was summoned but death resulted soon after her arrival. Mrs. Stillwagon was born in Buffalo, N. Y., August 17, 1870, a daughter of the late William and Sarah Adams. She was the mother of 11 children, eight surviving as follows: Mrs. A. D. Brill of Kingmont, W. Va.; Mrs. George McDuff of Scottsdale, Pa.; Arthur Kallveit of Erie; Charles P. Donald, Robert, Newell and Ramona, all at home. Her husband, two sisters, Mrs. C. C. Collins of Hecla, and Mrs. Weldon Baker of South Connelville and a brother, John Adams, Bullskin township, also survive. Deceased children are Emma Len, Anna Revere and Sam Clark Stillwagon. The latter died 20 months ago. Having resided in Connelville all her life Mrs. Stillwagon had formed a wide acquaintance in the community and was highly esteemed by her friends.

The funeral will be held at the home Wednesday afternoon at 2 o'clock, followed by interment in Hill Grove cemetery.

**WILLIS WALKER.**  
Willis Walker, 15 years old, son of Mr. and Mrs. Willis Walker of South Aurora street, died suddenly Saturday afternoon at his home. He was apparently in his usual health until he was stricken with heart trouble which proved fatal. Prior to his death he was able to be about the house for several days. Deceased was a freshman in the Connelville high school and was popular among his classmates as well as his many other friends. His parents and the following brothers and sisters survive: Mrs. Cleveland Rice, Canton, O.; Mrs. Charles Musgrave, Scottsdale; Mrs. John Walker, Morrell; Mrs. Lewis Cornish, Uniontown, and Henrietta and Eleanor Walker, at home. A sister Araminta, is dead. Funeral services were held this afternoon at 2 o'clock at the house, with Rev. C. E. Miller of the South Connelville Evangelical church officiating. Group No. 2 of the Boy Scouts of which the deceased was a member, turned out to attend the services.

**MRS. WILLIAM SWARTZ.**  
Mrs. Prudence Swartz died Sunday at her home on the New Salem road from complication of diabetes. She was born December 11, 1862, a daughter of Ellis H. and Mary Ann Woodward, and was married to William Swartz December 18, 1879. She is survived by her husband, five children, Mrs. Albert Younger of New Salem, Mrs. John Phillips of Haddonville, William, residing near home, and Mrs. Mead Martin and Paul, at home; three sisters, Mrs. Jennie Vance of Uniontown; Mrs. Lydia Horner of East Millboro, and Mrs. Sarah Holt.

land of Farmington, and two brothers, Charles Woodward of New Salem and Felix Woodward of Uniontown.  
The funeral will be held Wednesday at 2 o'clock, followed by interment in Sandy Hill cemetery.

**MRS. NANCY MCCARTHY.**  
Mrs. Nancy McCarthy died Sunday night at her home in Uniontown. She is survived by three sisters and three brothers.

**HARDING, HUGHES MOST CONSPICUOUS AT ARMS PARLEY**

Continued from Page One.  
er advances this method of approach had that of creating in the conference a spirit of harmony and agreement with which to take up afterward those aspects of the question which required the smoothing out of differences. In this spirit Mr. Root formulated the statement of principles in which all subscribed. Since, then, for the present and so long as the discussion of China continues, it is merely a question of timing one detail after another as to whether it falls within or without the principles agreed upon.  
By this mechanism of discussion obstacles fall aside like cards and discussion or angry emotion has literally no chance to arise. It is a mere matter of matching the given set of facts with the principle involved, a coldly intellectual process that not only involves no heat of emotion but actually puts all anger or selfishness in the position of an impossible intruder.  
Mr. Root engaged in this process is a spectacle to enrich the imagination. At an age and with a relation to the world that free him from any necessity for consideration of party or factional or personal interest, he makes the visible universe for his client and lays down a course of action whose results will have a fairly large determining influence on what the world is to be a century after Mr. Root has departed from it.  
China is infinitely the most portentous and difficult of the conference, but there can be no possible doubt that man of reason, following Mr. Root's method of approach, will arrive at agreement. Here is a world in which civilization has become a relatively small island surrounded by the chaos of Russia's 200,000,000, with central Europe's 100,000,000 and India's 200,000,000 tottering towards a degree of collapse that the men in the conference know better than any other. Under this set of conditions is it possible for the nations that compose this receding and imperiled island of civilization will choose to add 400,000,000 more to the sea of chaos?

Even on the basis of cold self-interest, the short-sighted selfishness that would divide China up must yield to the more enlightened self-interest that will restore it and maintain it for civilization. The men of reason who compose the conference will see that the thing to do about China is not to stand by but to heal it.

**HEAVY SNOW FALL**  
No Immediate Change in Weather Is Promised by Forecast.  
A sudden change in the weather resulted in a heavy snowfall here early Sunday morning and continued cold weather prevailed today. It is the longest stretch of real winter weather experienced this season.  
The mercury did not fall below 30 degrees during either last night or Saturday night. At noon today 40 degrees was registered.  
The snow fell to a depth of about six inches. It ceased during the morning for a time and was followed by a light fall in the afternoon. Finishes continued throughout this morning, and for a time were heavy. Probably more snow is the weather forecast today. Although the fall came suddenly it did not hamper transportation lines to any great extent.

**Make This a Brunswick Christmas**

An ideal addition to the Christmas festivities is a Brunswick, for it brings to each member of the household his favorite music in the intimate atmosphere of the home.

And note, too, that there is no reason, when buying a phonograph, to be satisfied with anything short of a Brunswick—for prices and terms on Brunswick are the same as those of other instruments.

**Exclusive Features**

Brunswick plays all makes of records without attachments. This means that with a Brunswick in your home you can enjoy all the great artists regardless of the make of records for which they record.

This is accomplished by the *Ultima*—a part of the Brunswick—not an "attachment."

Another exclusive Brunswick feature is the *Oval Tone Amplifier* or horn, made entirely of wood and modeled like a fine old violin. It is responsible for much of the wondrously beautiful Brunswick tone.

## DROP IN COAL RATES IS FORESHADOWED BY FARM PRODUCTS CUT

At Least That Is the Impression Prevailing in Washington.

### COMMERCE COMMISSION

Expected to Act in Association With Or Independently of the Railroads; If Not, Formal Complaint Will Be Filed by Wholesale Coal Association

There is a growing feeling in Washington that the Interstate Commerce Commission, with or without the assent of the railroads, is preparing to order a reduction in coal rates of not less than 10 per cent and that this reduction will become effective about the first of January. The coal trade representative of the Coal Trade Journal, it is not possible at this stage to make any positive statement upon this proposition, but there are abundant indications that the matter is being favorably considered by the commission and that some official announcement may be forthcoming around the first of December.

The action of the railroad executives in voluntarily agreeing to a 10 per cent reduction on all farm products to become effective "as soon as possible" has given impetus to the movement for a general decrease in rates on all basic commodities which necessarily would include coal. The farm products rates were arranged for at the New York meeting of railway executives, a meeting attended by representatives of the Interstate Commerce Commission.

That action is taken to be the forerunner of a decrease more sweeping in its scope. The building materials interests as well as the coal interests are demanding rate relief and both groups appear to have some official assurances that this relief is not far in the future. If the cut in coal rates comes it will probably include sand and gravel.

No movement has gained headway in favor of reduction on classified freight. Existing rates on this class of freight will probably remain unaffected for many months, all railroad interests insisting that the utmost they can do now is to deal with commodity rates. Even the commodity rates reductions were to have been predicted upon further reductions in wages. But the pressure for cheaper freight charges upon farm products, upon coal and upon building materials has been so heavy that the railroads and commission seem willing now to proceed with rate revision in that direction without any immediate promise of reduced payroll expenses.

Coal interests are not pressing for coal rate reductions upon one day's notice as were the farmers. Those interests feel that a 30-day notice would be sufficient in view of the fact that most retailers have stocked up for a 30 to 60-day period with coal contracted for on the basis of existing rates. It appears more equitable, therefore, to all hands to give a reasonable period of notice before putting cheaper coal rates into effect in order to allow the retailers to escape losses on existing stocks.

The American Wholesale Coal Association is proceeding with its petition for lower coal rates, notwithstanding developments in other directions. That association has asked for return to the earlier level of rates which when figured out to the light of 20 cents a ton would mean a net reduction of 10 per cent, however, the association's petition may not be pressed for the time being.

Also it is indicated that should the Interstate Commerce Commission fail to take action on coal rates in association with the railroads or independently of the carriers, the association may withdraw its petition for a rate reduction and submit a formal complaint. This procedure would have the effect of bringing the whole matter to an issue.

No date has been fixed by the commission for a hearing on the wholesalers' petition and no pressure has been laid upon that body for a hearing in the near future.

## OUCH! ACHING JOINTS, RUB RHEUMATIC PAIN

Rub Pain Right Out With Small Trial Bottle of "St. Jacobs Oil"

Rheumatism is "pain" only. Not one case in 50 requires internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappoints and cannot burn the skin. Limber up! Quite complaining! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains.—Advertisement

## PEPTO-MANGAN MAKES BLOOD GOOD

Physicians Rely Upon It. Sold in Liquid or Tablet Form.

Gude's Pepto-Mangan is a blood builder. It restores blood to its natural vigor. Weak blood, clogged with poisons, causes that exhausted, dazed feeling. It shows in the complexion, which becomes dull, pale or sallow. That is because there is an absence of the red corpuscles which give skin a healthy, rosy color. Gude's Pepto-Mangan taken regularly every day soon makes new blood rich and red. Physicians have prescribed it for years in cases of anemia, or poor blood condition. The weak blood is fortified by a fresh supply of red corpuscles. The feeling of physical vigor returns in a remarkable manner. Instead of a drooping, down-at-the-heels feeling, there is live, wide-awake energy. Sleep is more restful and the appetite sharper. Any druggist has Gude's Pepto-Mangan in both liquid and tablet form. Look for the full name, "Gude's Pepto-Mangan," on the package.—Advertisement

### PISO'S

SAFE AND SANE for Coughs & Colds

This is a different kind of cough syrup. Quick relief. No opium. No narcotics.

Help to Legal Profession. "I don't imagine much happiness will result from this marriage." "Why not?" "She's a flapper and he's an elderly millionaire."

"Oh, I don't know about that. It may not be long before a few lawyers will be rubbing their hands with quiet satisfaction."

Oratorical Purpose. "Your speeches have given me a great deal to think about," said the admiring constituent.

"That isn't their object at all," protested Senator Borchgrevink. "I don't want to persuade you to sit down and think. I want to stimulate you to get out and hustle for me and the public welfare."

A Mean Trick. "How was the snout?" "A practical joker broke up the party. The medium told him to ask any question he wanted to and the spirits would rap the answer."

"I see." "So he asked what was the population of China. That would call for about 400,000,000 raps."

## MEN AND WOMEN OF CONNELLSVILLE!

Read the Remarkable Results from Tests Made at Jefferson Medical College, Philadelphia, of a New Tonic Food.

Perhaps you are one of the thousands of men and women today who are run down, tired out and "peppery." You sleep poorly, are easily fatigued and suffer from a bit of nervous tension. Or you are a trifle easily annoyed by the petty out-lies of your daily task, and approach your work in the morning with a listlessness and dull dread, instead of with vim and vigorous enthusiasm.

Such people who feel themselves on the verge of a nervous breakdown, attribute it to overwork. As a matter of fact this is often far from the truth.

Science has proved that the human brain is so constituted that it can sustain a tremendous amount of work—in fact is stimulated by it. But it must have the cooperation of a sound, well-nourished, healthy body. Nine times out of ten those who think they are suffering from a nervous breakdown are really suffering from an under-nourishment. They are not the victims of "nervous breakdown."

What is this "under-nourishment" we hear so much about nowadays? Not the lack of food but lack of a balanced ration, lack of the vital elements in the food we eat—the inability of our food to supply the body with those properties most essential for its growth and to sustain life.

Vitamins—the curious growth-promoting, health-giving elements found chiefly in milk, yeast, food vegetables, eggs and in other covering of rice, wheat and other cereals, are often eliminated from the modern diet because of scientific milking and

over-cooking. Until these vital elements are supplied the body cannot attain its highest development—the system is weakened, and low vitality is the result.

Now science has discovered an easy way of supplying these health-building vitamins—the wonderful new tonic food which was perfected by Dr. Philip H. Hawk, Professor of Physiology and Chemistry at Jefferson Medical College, Philadelphia, called SUSTO, which contains in a concentrated form the vitamins of Yeast, Rice, Egg, Milk, with Beef Protein, Nuclein and Iron.

Before SUSTO was offered to the public it was subjected to the most rigid tests by Dr. Hawk at the Medical College, one of the foremost authorities on nutrition in the country—who pronounced it an excellent nutritive tonic.

SUSTO is not a medicine. It is a food balancer, it adds to the daily diet the growth-promoting, strengthening and life-giving elements that we are not getting in our daily food, and which are as necessary as fresh air to sustain life.

If you are irritable, pale and nervous, thin, worn-out and haggard, take SUSTO, this wonderfully efficient new tonic food. There is nothing like it to build up strength and energy and you will notice an improvement in weight, perfect fitness, and general " pep " in a surprisingly short time.

## The Sporting World

### Tornadoes Dispose of United; Three Scores Are Made on Visitors

Touchdowns Are Made in First Two, Also Last Period.

#### GAME IS HARD PLAYED

The Connellsville Tornadoes again demonstrated what football supremacy really was when on Saturday the team walloped the United eleven, 21-0. It was a bigger score than any visitors had ever expected piled up on them by Connellsville. The Cokers gained every touchdown and despite the one-sided score, the game was exceedingly interesting. United got to Connellsville's nine-yard line in the last quarter but here the Tornadoes stiffened and got the ball on downs.

Connellsville kicked off and scored before the United aggregation ever had its hands on the pigskin. Using a short kick, the locals recovered the ball and it was the beginning of a march towards a score. Pittsment received the ball.

The White brothers Charles and James, made the next 22½ yards for two first downs all by themselves, with the exception of a yard by Pittsment. Then Pittsment got four on an end run. J. White made up three of these and an attempt at a forward pass was frustrated before the ball was thrown. Darr being forced to run with it. He gained 1½ yards. It was last down and eight to go. A touchdown was 17 yards away. Darr called a forward pass. J. White tossed the ball to Widmer who had already crossed the last line. It was a prettily scored touchdown. Pittsment kicked the goal.

For the next few minutes Connellsville had to hold United to regain the ball. Then another march toward was started. The quarter ended with the ball on the 11-yard line and the touchdown came within a short time after the start of the second period. C. White carried it the entire distance in exactly four plunges through the line. Pittsment again kicked goal.

United made only two first downs in the opening half. One of these was earned. The other came when the Tornadoes were penalized two yards for taking an extra timeout in the half. This made it first down for United. The other was made immediately afterwards. The ball ended just after J. White punted.

The third quarter was hard fought. United threw all its strength into the game but could not score. The half opened with the visitors receiving the kick-off. The ball was carried back 15 yards, then three rushes resulted in a first down. Two more rushes netted nine yards but on the next play Fisher was thrown for a seven-yard loss. The team punted Connellsville followed up with two first downs in rapid-fire fashion and then after an attempt at a forward failed another first down was made. Mistakes resulted in losses and the Cokers punted.

The opening of the fourth quarter came just after Pittsment had made a 15-yard run and placed the ball on the 15-yard line. With another score in eight and nothing could stop the Tornadoes. Darr went in for LaPorte who had previously been substituted for him. Bufano took Pittsment's place and Darr filled C. White's position.

J. White and Bufano made it first down, placing the ball on the five-yard line. Darr plunged forward for a two-yard gain and then Bufano took it across. He also kicked the goal making a perfect score.

Although the attack seemed no less something, nor their playing just any dream, the Tornadoes eased up somewhat and before they knew it the United outfit had moved from one end of the field to the other. Forward passes and leady football gave the visitors their gains. One aerial pass from Fisher to Magdo netted 23 yards. It looked as though United would lose

the ball on downs but the onside kick was tried. It barely crossed the setting line and was recovered by the visitors. Another forward Fisher to Koculis, added 13 yards and the ball was on the 15-yard line. United lost on an attempt at the end. Another forward Fisher to Bari, netted 11 yards and the ball was on the nine-yard line. Here the team lost the ball on downs. Connellsville called it out of danger but was held up about the middle of the field and punted. The visitors returned the kick after making one first down. Jim Darr made 20 yards around end and was knocked cold when tackled. He was removed from the game which ended in the next few minutes.

United had a heavy nicely balanced team.

Judging from the size of the visitors, it was fortunate for the Tornadoes that the field was not water-soaked.

It was a fine day for the game. The snappy air seemed to add pep to the play.

Brownsville will no play the Tornadoes again this year. The team is preparing to disband.

Next Saturday Connellsville plays the Linwood club of Pittsburgh. The team has not lost a game this season.

The Tornadoes started their season with the intention of playing until Christmas. Only a few more games left.

The Tornadoes made a total of 11 first downs to eight for United. Six of the visitors' were made in the last half. Forward passes resulted in two of them.

To be observed, it seemed that the Tornadoes gained much more ground than their opponents. However, actual gains for the Cokers were 250 yards and for the United outfit 240 yards. Most of the visitors' ground was gained in the last quarter.

The team having the ball for a great portion of that period. Connellsville was penalized 34 yards and United 10. There was a total of six penalties.

The Tornadoes lost 15 yards and United was thrown for losses of 26 yards. Deducting the lost ground the total gain for Connellsville is 254 yards and for United 214 yards.

INGROWN TOE NAIL TURNS OUT ITSELF

A noted authority says that a row of "Outgro" upon the skin surrounding the ingrown nail reduces inflammation and brings out a tough, tender, sensitive skin underneath the toe nail that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions - Adv.

### O'NEILL ASPIRED TO BE VILLAGE BUTCHER

Became Big League Football Coach by Accident.

Started Career as Target for Battling  
Rams of St. John's Military Academy—Coached Syracuse and Colgate

Frank J. ("Buck") O'Neill is a big league football coach by accident. If he had followed his dream and had been a small town butcher at Manlius N. Y., where he grew up, "I thought a butcher was the greenest man in the world."

I determined to make that my life work and got a job at the village meat market.

One day St. John's Military Academy ran shy of football talent.

They asked my employer if he could spare his husky apprentice. He was good natured and let me go.

It raged around all afternoon as a target for the battling rams of the cadet variety. It was rough work but I liked it. And I went back.

When the war hit full tick left school the cadet coach had a hunch. He suggested that I enter school and plug up the hole in the back field.

"That's how I got into it," said "Buck" played at Williams and later at Syracuse. He took law with the football. Couldn't help thinking, says "Buck." There's a rich practice in it like football.

He coached Colgate and Syracuse eleven, before going to Columbia. Winning teams follow in his wake.

ELECT CARR FOOTBALL HEAD

Professional Game to Be Conducted Along Lines Observed by Organized Baseball

Joseph F. Carr, former president of the Ohio State league and who ex-

pects to have the league in action again next year, has been elected president of the American Professional Football association. His headquarters are at Columbia. The professional football will conduct of its own, the lines observed by organized baseball with contracts on playing reserve clauses and everything, including rules as to eligibility. The professional winter football is developing into quite an affair and owners of football parks are being tipped off to the revenue that is to be derived from renting their plants for the same.

## THE SOISSON.

"LIFE'S DARN FUNNY" is a Metro picture of real entertainment, worth with Viola Dana and Gareth Hughes in the leading roles. Nearly every body some "little" in his life has occasion to say apropos of some unusual experience, "that takes one completely by surprise." Life's Darn Funny. And it is. You will think so in this picture when you see Zoe Robert the ambitious but struggling violinist who is about to launch on her career with a violin when she discovers the lack of a "down" may prevent her debut. A luck would have it another artist, Clay Warwick, painter by profession and landlady-bodger by necessity, hears her weeping, comes on the scene and designs a stunning look for her. Both later go into the costume designing business, hoping to get the money, but things go wrong continually. Always at the 11th hour something "mysterious" intervenes and it is the end both are launched successfully on their artistic careers. Miss Dana has the part of Miss Zoe Robert, and opposite her is Gareth Hughes the forthright and brilliant actor as Clay Warwick, the pain of Mr. Hughes consented to delay work in his own pictures so as to play this part. Other members of the support cast are Eva Gordon, Kathleen Quinlan and Mark Fenton.

The picture will also be shown to-morrow.

## THE PARAMOUNT.

"THE ROWDY"—The feature picture today presents Gladys Walton in the stellar role. It is a refreshing picture colorfully composed of pure comedy in a setting of the Pacific, but with sufficient "contingents" shown in the home life of two aristocratic old ladies, and their enthusiasm to make the story men of the sea stand out in strong relief. The little rowdy lovin', his humble surroundings in a town between them and a blood-curd to relatives. Puffed out both directions—duty and desire—she unwillingly attempts to become a spy, until she finds it quite unnecessary since the relatives who have planned to surprise her with a mother have the surprise turn into a boomerang that reacts on themselves. For the mother is only a case of mistaken identity. The picture is a scientific perfect and will be regarded as just one more to the credit of the picture star and the people surrounding her. Supporting her capably are Jack Fowler, Anna Hernandez, Frances Hutton, Adella B. Jones, Frances DeCelle, Rex Russell, C. B. Murphy and Bert Roach.

## THE ORPHEUM.

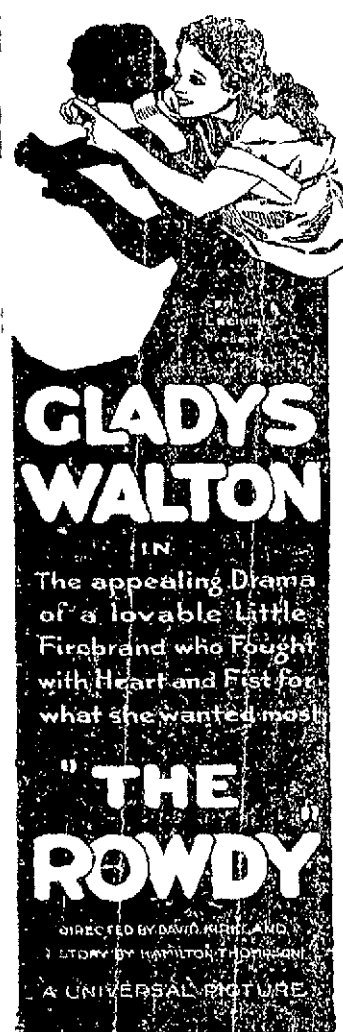

"BLIND WIVES"—A William Fox picture featuring an all-star cast in the feature picture today and tomorrow. "Blind Wives" is really a play skillfully woven into one. Two of the leading players enact five different parts each and another plays four parts. Dale Taylor who made quite a name in "White Noise" plays the leading female lead. She plays the grand lady, a French waster, a crippled girl, of the alums, the faithful wife of a Russian fur hunter and a beautiful model in a fashionable dressmaking establishment. All difficult parts—and Miss Taylor does them all equally well. In the scenes. He is her wealthy husband her rejected sweetheart her sister's beau her husband in the Russian scenes and her cruel employer in the dressmaking establishment. MacDermott is always good. He knows what is going on and he gives it a finish that makes it a pleasing memory. In fact, aside from the fine story that Edward Knoblock wrote the work of Miss Taylor and Miss MacDermott is worth going a long way to see.
